PRACTICAL

ROK Straps are made from a solid natural rubber core which is durable and chew resistant. The non stretch handle and traffic leader at the base of the lead is great for close control in hazardous situations and can be used as an in car restraint

TRAINING

Training your dog with ROK Straps could not be any easier due to its unique stretch construction. ROK straps provide just the right 'give' to avoid jolts, but unlike standard recoil leads, keeps control at all times.

SAFETY

The No-Jolt stretch ROK lead signals your dog to stop without the sudden jolt, resulting in less jolts on you and your dogs collar and neck. The traffic leader loop offers instant close control.
